**EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE**

1. Authorization for the following examiner's amendment was given in a telephonic message from Lisa L.B. Yociss, Reg.# 36,975 on 7/6/2004:

Please delete Claim 82.

***Reasons for Allowance***

2. The examiner concurs with the applicants' statement that "The combination of Poff, and Morgan does not describe, teach, or suggest the manner in which the elements of Applicants' claims interact with each other. The combination does not describe, teach, or suggest a third object generating an event to send to a second object that indicates that the location is required to be changed" (page 6, lines 24-29).

Regarding claims 65, 72, 75, and 78, the examiner concurs with the applicants' remarks that "The combination of references cited by the Examiner does not render Applicants' claims unpatentable. The combination fails to disclose receipt within the first object of selected user input, sending user input from a first object to a third object, the manner in which the elements of Applicants' claims interact with each other, determining by a third object whether a change in location is required, or a third object generating an event to send to a second object that indicates that the location is required to be changed" (page 7, lines 14-19).

Art Unit: 2178

Furthermore, the subject matter discussed above is not shown nor would have been obvious to a person of ordinary skill in the art at the time of the invention was made in the prior art cited.
